FBI Presentation 45-60 minutes – Dave Harben's connection.

Clever Bonilla: Law Updates and/or Emotion presentation for 45 minutes.

David Strom was going to speak to McCoy's Legal Counsel to speak about statements.

David brought up the idea of possibly doing a panel of our members to speak about statements.

Clever wants to poll together the last attendees about sharing their statement process, if willing.

Possible backup presentation over how to log CEU's, Chuck mentioned the Southeast Chapter having a nice example of how to do this.

We are going to consider adding an additional meeting in July or August. Possibly in the Houston market.

The board enquired about being ready to do a virtual meeting or adding a virtual component for members who cannot attend in person.

Wayne added that we may consider adding an additional position to the Board called the Special Projects position. If we have several members who would like to join the Board, we may consider doing sub-committees for more input and funneling the information into the Special Projects position to report back to the Board. Wayne and Emily are going to put together a job description for the position.

Chuck asked about the merchandise for IAI, Wayne is going to chat with Emily about that.

Chuck wants to set the dates for the rest of the year. Taylor mentioned that we need to make sure we have a host who is available for us before we nail dates down.

Clever mentioned having a set template of questions to put on a survey so we can have quick turnarounds on surveys for anyone who attended the meeting in person.

1:10pm meeting adjourned.
